

The highly acclaimed
Hands-on GMP Workshop
is launching in a new
**INTERACTIVE
E-LEARNING
FORMAT!**

This course is designed for people who are working, or plan to work in areas associated with the manufacturing of cell and gene therapies, or want to expand their knowledge on advancing cell and gene therapy projects towards the clinic.

At the end of this course, the participants will be able to:

- Identify the **essentials of GMP** requirements and the relevant Canadian and international regulations;
- Identify **cleanroom facility and gowning requirements** and **define aseptic workflow**;
- Identify the components of a recognized GMP training program;
- Describe how to plan a **validation strategy through Quality by Design and Risk Management**;
- Recall the main components of a **Quality Management Systems (QMS)**, including SOP writing and quality manual development, batch records, environmental monitoring and GMP training program;
- Explain basic manufacturing techniques for cell-based therapies;
- Identify the **quality control** steps and parameters required for **product release**.

**MORE THAN 12 HOURS OF
INTERACTIVE TRAINING**

**LEARN AT YOUR OWN PACE
AND IN THE COMFORT OF YOUR
OWN HOME**

**TEST YOUR KNOWLEDGE THROUGH
ASSESSMENTS AND QUIZZES**

**PASS THE EXAM AND OBTAIN
YOUR CERTIFICATE OF COMPLETION**

**ADD TO YOUR HQP TRAINING FILE
FOR REGULATORY COMPLIANCE**

**INTERACT WITH EXPERTS
AND NETWORK WITH OTHER
TRAINEES**

Wondering what current **GMP IS ALL ABOUT?**

**TAKE OUR ESSENTIALS OF CGT GMP
MANUFACTURING IN UNDER 60 MINUTES COURSE
AND YOU'LL HAVE A BASIC UNDERSTANDING
OF WHAT PRODUCTION UNDER GMP MEANS!**

At the end of this course, learners will be able to:

- Explain how production under GMP differs from routine laboratory work, including process development;
- Identify the main components of Quality Management Systems (QMS) required to manufacture biotherapeutics under GMP;
- Describe the critical path and steps to translate process development into GMP production: minimizing risk;
- This course is also available in French.
